This version contains every secret, event and ending. Do not hand it to players.

HOW TO USE THIS TEMPLATE

- The game master fills in the whole GM version. The player version only contains the fields players are allowed to see – hand it out before the mission.
- Keep it short: bullet points are enough. One sentence per field beats a page nobody reads.
- Everything you enter is your own story. Decide how you stage each scene in the game before you start.

GAME WORLD OR FICTION?

- Everything this template describes – names, named ships, companies, radio messages, events – is made up. This mission does not exist in the game.
- The template describes no game mechanic. The game master stages what happens in game with whatever Star Citizen currently offers: your own ships, meeting points, fellow players as extras.
- Lines marked IN GAME are suggestions for staging a scene in the game – not something the game does on its own.
